This Reference Guide is intended to quickly and concisely put the most important and relevant facts at your fingertips for every product we offer.

This guide explains why each product is important and why NeoLife is your best choice. For your convenience, all products and categories are listed alphabetically from A-to-Z.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Acidophilus Plus™</b> Code 2791 60 capsules  <b>Dosage:</b> 1 capsule daily.	Many different species of naturally-occurring microorganisms, called lactobacilli, live within the gastrointestinal tract, and perform beneficial functions for gastrointestinal health. Historically, these important organisms have been supplied by dairy foods that many people today don't regularly consume. Intestinal lactobacilli aid normal digestive functions and help produce vitamins (especially B-vitamins and vitamin K). Normal levels of these lactobacilli can be upset by poor diet, illness, diarrhoea, antibiotics, drugs, alcohol, and harmful micro-organisms. Sufficient friendly lactobacilli must survive transit through an acidic stomach environment to flourish and promote a healthy balance of micro-organisms in the intestines.	<b>Whole-food-derived</b> , each capsule contains beneficial bacteria isolated from cultured dairy foods to support a healthy balance of micro-organisms in the gastrointestinal tract.  <b>Broad-spectrum</b> delivery of five types of beneficial, lactic acid-producing bacteria: <i>Lactobacillus acidophilus</i> , <i>Lactobacillus bulgaricus</i> , <i>Lactobacillus casei</i> , <i>Bifidobacterium bifidum</i> , and <i>Streptococcus thermophilus</i> .  <b>Concentrated</b> , with as many beneficial bacteria as 10 servings of yoghurt or 5 servings of acidophilus milk!  <b>Potency guaranteed</b> for each capsule filled with 5 billion live organisms and protected for delivery to the intestines.  <b>Active cultures</b> are protected by an exclusive Gel-Guard protection system assuring that the maximum number of live bacteria survive the stomach acid and reach the site of action, the intestines.
<b>Aloe Vera Gel</b> <i>See Nutriance Aloe Vera Gel</i>		
<b>Aloe Vera Plus</b> Code 2783 1 litre  <b>Dosage:</b> Drink 50-100 ml daily. (Keep refrigerated)	We live in a taxing and pressurised world and seek relief from a variety of symptoms related to this lifestyle. Our bodies become physically taxed and depleted of energy and necessary nutrients. Our metabolism is also affected. Many people are turning to pure, wholesome products in an effort to deal with some of the negative elements associated with our modern lifestyle.	<b>Made with 100% pure filtered Aloe Vera.</b>  <b>NeoLife's Herbal Tea Blend</b> enhances Aloe Vera's beneficial properties.  <b>Fructose included for sustained energy</b> does not cause the blood sugar surge that table sugar can.
<b>Amino Acid Supplements</b> <i>See Ami-Tone</i>		
<b>Ami-Tone</b> Code 2770 90 tablets  <b>Dosage:</b> 3 tablets daily.  <b>Note:</b> To be taken approximately 3 hours after the evening meal or at bedtime.	The body requires the amino acids L-arginine and L-ornithine to produce hGH (human growth hormone). hGH supports the utilisation of fat for energy and the production of lean body tissue.	<b>Supports muscle protein retention</b> , fat mobilisation, lean tissue development and overall body toning.  <b>Rapid absorption and utilisation</b> from free form amino acids, (containing L-arginine and L-ornithine).  <b>Works in sync with body's natural cycles</b> having a timed dose or being taken at bedtime, it utilises regular nightly fluctuations of amino acid blood levels.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Appetite Reducer</b> <i>See GR<sup>2</sup> Control</i>		
<b>Beta Guard</b> Code 2788 100 tablets  <b>Dosage:</b> 2 tablets daily.	Many of the negative factors that influence the optimal functioning of our bodies can be attributed to harmful agents in our food, water and air. Scientific investigation has found that certain nutrients may offer a measure of protection.	<b>Formulated by the late Dr. Arthur Furst</b> , world renowned cancer researcher and toxicologist.  <b>Unique synergistic formula</b> includes antioxidants, beta-carotene (and other carotenoids from carrots), vitamin C and vitamin E, to trap free radical oxygen and keep cells healthy.  <b>B vitamins</b> assist in detoxifying environmental pollutants.  <b>Zinc, GTF Chromium and Selenium</b> have been shown to be important in the body's ability to combat very negative effects due to the presence of heavy metals.
<b>Body Care</b> <i>See Nutriance Aloe Vera Gel, Nutriance Nourishing Hand &amp; Body Lotion, Nutriance Refreshing Bath &amp; Shower Gel, Body Luv &amp; PCC.</i>		
<b>Body Luv</b> Code 2313 250 ml  <b>Directions for use:</b> Add two squirts under running bath water. Can be applied directly to dry skin areas.	Bathing is a necessary, daily ritual that not only cleans us, but relaxes too. Harsh environmental conditions, ranging from cold weather to air pollution, damage our skin and cause dryness and cracking. The addition of a high quality bath oil can combat dryness and induce relaxation.	<b>Delicately light and non greasy</b> formulation. Self dispersing, spreading easily on contact with water.  <b>Pleasantly fragranced</b> , lingering, but will not conflict with colognes or perfumes.
<b>Calcium</b> <i>See Chelated Cal-Mag (with Vitamin D)</i>		
<b>Car Care</b> <i>See Carpet Glo, Super 10 and Wash 'n Wax</i>		
<b>Care</b> Code 2411 1 litre Code 2412 5 litre  <b>Directions for use:</b> Spray surface and allow at least a 5 minute disinfecting time before wiping.	Whether at home, school, hospital, hotel or gymnasium, cleaning can be a tough job, but adequate hygiene is an even greater challenge. A vast range of germs can happily multiply if not constantly checked and disposed of. An ineffective, untested disinfectant will have no impact on hygiene and may do more harm than good. Since each environment has its own particular needs, adherence to proven product recommendations makes for an easy and practical solution.	<b>Efficacy proven</b> , according to SABS 636.  <b>Comprehensively tested</b> against a variety of micro-organisms.  <b>Dosage recommendations</b> for easy and accurate use.  <b>Safe to use</b> , containing no abrasive or hazardous ingredients.  <b>Widely used</b> in a variety of applications.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Carotenoid Complex</b> Code 2564 30 capsules Code 2565 90 capsules  <b>Dosage:</b> 1 - 3 capsules daily.	Carotenoids refer to the naturally occurring colourful family of red, yellow and orange pigments found in the fruit and vegetables we eat. They also exist in many green plants but are masked by the presence of chlorophyll. Carotenoids contribute to antioxidant activity in cellular lipids, support normal cellular growth and renewal, and promote immune cell activity. Carotenoids also assist in supporting the function of the cardiovascular system.	<b>Whole-food ingredients</b> in an exclusive blend of concentrates derived from whole tomatoes, carrots, spinach, red bell peppers, strawberries, apricots and peaches, plus pure olive oil in a lipid-soluble formula.  <b>Significant immuno supporting benifits</b> verified by three separate, independent studies by USDA researchers.  <b>The most complete carotenoid supplement on the market.</b> With every capsule, you get the power of an optimal serving of fruits and vegetables including these 15 different carotenoids: Alpha-, Beta-, cis-Beta, Gamma- and Zeta-Carotene, Canthaxanthin, Capsanthin, Cryptocapsin, Alpha- and Beta-Cryptoxanthin, Lutein, Lycopene, cis-Lycopene, Violaxanthin and Zeaxanthin.  <b>More antioxidant power than vitamins E and C.</b> One Carotenoid Complex capsule has the antioxidant power of 800 IU of vitamin E or 400 mg of vitamin C.  <b>Kilograms of carotenoid power.</b> Each bottle contains the carotenoid equivalent of 115 kilograms of the raw fruits and vegetables it's made from.  <b>Exclusive NutriMax Process™</b> preserves nutrient integrity and insures maximum bioavailability for these key phytonutrients.
<b>Carpet Glo</b> Code 2034 1 litre Code 2035 5 litre  <b>Directions for use:</b> Mix 1 part Carpet Glo to 40 parts water (hand cleaning). Observe instructions (machine cleaning).	Carpets and furnishings say a lot about your house and that is why it is so important to keep them clean. Having them professionally cleaned can be expensive. Most consumers agree that a carpet cleaner should be powerful, yet gentle so that it not only removes dirt but enhances the carpet's colour and general appearance.	<b>Cleans</b> carpets and upholstery.  <b>Excellent features</b> include repelling dirt, being antistatic and quick drying.  <b>Highly concentrated</b> and therefore very economical.  <b>Voluminous foam</b> makes for efficient dry method cleaning.  <b>Versatile</b> , it also leaves window panes sparkling.
<b>Chelated Cal-Mag (with Vitamin D)</b> Code 2722 90 tablets  <b>Dosage:</b> 3 tablets daily.	Calcium and magnesium, necessary for strong bones and teeth are also critical for cardiovascular health, nerve and muscle function and many enzyme functions. Vitamin D promotes calcium absorption and maintenance to enable normal bone mineralisation and growth.	<b>Exclusive double amino acid chelation</b> (with glycine) to promote higher calcium and magnesium absorption.  <b>Preferred 2:1 ratio</b> of calcium to magnesium to meet the body's needs.  <b>Readily absorbable and highly bioavailable</b> vitamin D3.  <b>Pharmaceutically pure</b> – seashell sourced calcium.
<b>Chelated Iron</b> Code 2786 100 tablets  <b>Dosage:</b> 1 tablet daily.	Iron is essential for overall well-being; it is present in every living cell of the human body. Iron helps maintain healthy red blood cells which play a role in oxygen transportation.	<b>Enhanced absorption</b> from unique NeoLife amino acid chelation (with glycine).  <b>Pharmaceutical grade</b> iron is the base that provides high purity and quality.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Chelated Zinc</b> Code 2787 100 tablets  <b>Dosage:</b> 2 tablets daily.	Zinc is needed in over 100 of the body's enzymes and involved in a myriad of essential body functions. It functions as an antioxidant and is involved in carbohydrate metabolism and the activation of vitamins, especially B vitamins.	<b>Improved absorption</b> from amino acid chelation (with methionine).  <b>Highest purity and potency</b> from pharmaceutical grade raw material.  <b>Unique chelation process</b> reduces the chance of stomach irritation.
<b>Chewable All-C</b> Code 2512 90 chewable tablets  <b>Dosage:</b> 1 tablet daily.	Vitamin C is an essential nutrient needed for maintaining connective tissue, healthy blood vessels, immune system cells, gums, teeth, bones and other tissue & organs. It is also a potent water soluble antioxidant that helps protect body fluids and the watery portions of cells from free-radical damage linked to cardiovascular disease, cataracts, declining immunity and premature ageing.	<b>High-potency, high-purity Vitamin C-related factors from oranges, lemons, and grapefruit enhance bio-availability.</b> Chewable All-C also contains rose hips & acerola cherries - nature's richest Vitamin C sources!  <b>NeoLife's exclusive Neo-Plex Concentrate provides virtually everything from whole oranges except water</b> but includes juice factors (Vitamin C, bioflavonoids, etc.) rind and pulp factors (including flavedo, mesocarp, endocarp, and protopectins).  <b>Other whole-food bioflavonoids assure broad-spectrum protection</b> - rutin from buckwheat, hesperidin from grapefruit and bioflavonoid complex from lemon.  <b>Long-term potency assured.</b>
<b>Cruciferous Plus</b> Code 2892 60 tablets  <b>Dosage:</b> 1 tablet daily.	A large volume of research points to the protective benefits of regular consumption of cruciferous vegetables. Cancer Institutes and other health organisations recommend one daily serving of cruciferous vegetables. Many people find the taste of these foods too pungent; on average, we currently eat only 1 serving per week. The crucifers contain two main phytonutrients that science has shown to be particularly impactful on major risks to our well-being - indole carbinols and isothiocyanates such as sulforaphane. Other beneficial phytonutrients include terpenes, chalcones and isoflavones. The research is compelling.	<b>Broad spectrum, cruciferous vegetable and related phytonutrients</b> provide protection from certain particularly negative threats to our well-being.  <b>Exclusive Cruciferous Blend</b> contains broccoli, radish, kale, black mustard, brown mustard and watercress. These provide indole carbinols and isothiocyanates such as sulforaphane.  <b>Added benefit of additional phytonutrients</b> including D-limonene - a terpene, chalcones from liquorice root and isoflavones such as genistein from soya beans.  <b>Convenient serving</b> with each tablet providing the phytonutrients of one optimal serving of cruciferous vegetables and other related phytonutrients.
<b>Daily Vitality Pack</b> Code 2593 30 sachets  <b>Dosage:</b> 1 sachet daily.          Ref. T1140 (Act 101/1965)	A proper diet and supplementation is essential for optimal well-being. Unfortunately, most of us do not eat the foods that benefit us the most. The prime purpose of food supplements is to fill in the nutritional gaps produced by faulty eating habits and nutritionally inferior foods. However, it isn't always easy to figure out what supplements to take, nor is it always convenient to take supplements, making it difficult for consumers to choose nutritional supplements that are both convenient and full of important nutrients.	<b>A balanced mix</b> of essential vitamins and minerals.  <b>Complete combination</b> of nutrients necessary to maintain optimal well-being.  <b>Convenient individual sachets</b> for each day's supply of important, essential nutrients. Easy to take anywhere, anytime.  <b>Technologically advanced with special features including:</b> <ul style="list-style-type: none"><li>• <b>Formula IV</b>, with Tre-en-en Grain concentrates.</li><li>• <b>Sustained Release</b> controlled nutrient delivery for approximately 6 hours.</li><li>• <b>Broad spectrum</b> mineral supplementation.</li><li>• <b>Antioxidant benefits</b> of Vitamin C and E.</li></ul>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Disinfectant</b> See <i>Care</i>		
<b>Fantastik</b> Code 2051 1 litre Code 2052 5 litre  <b>Directions for use:</b> Apply thinly and evenly in one direction.	Probably the hardest surface to keep clean in any environment is the floor. Everyday a new layer of dirt, a new set of scuff marks and new water stains all combine to make the floor surface dirty. Some surfaces have a tendency to absorb dirt, so a smooth, even finish would make for easy cleaning.	<b>Modern polymer chemistry</b> with millions of molecules, together forming a strong, resilient material with a high sheen.  <b>Spreads evenly</b> with the help of an inbuilt levelling agent.  <b>Concentrated and economical</b> product, just one thin coat at a time.  <b>Resists</b> scuff marks and water stains.
<b>Feminine Herbal Complex</b> Code 2896 60 tablets  <b>Dosage:</b> 1 tablet morning and evening.	Women everywhere know that even though you might be healthy in all other respects, monthly complaints and mood swings can be challenges to your feelings of wellness. For centuries, master herbalists have known that women have unique cyclical needs and that certain herbs work to balance the feminine cycle. Because a woman’s menstrual cycle places her body in a constant state of flux, specific formulations have evolved over the centuries to assist women in achieving balance and wellness by addressing needs that are specific to the female system.	<b>Comprehensive formula.</b> Our unique “complete family” approach to the formula provides broad, synergistic effects of the herbal constituents, which optimise their ability to support a woman’s cyclical needs.  <b>Herbs are selected from many global traditions,</b> bringing you the best herbal knowledge from around the world.  <b>Contains St. John’s Wort,</b> which has been shown to help support calmness, relieve low mood and support positive mental attitude.  <b>Contains Wild Yam,</b> which has been shown to support normal female physiology and function.  <b>Guaranteed purity, potency and consistency.</b> <b>100% pure herbal ingredients.</b>  Herbal formula <b>contains no chemical or animal products.</b>
<b>Fibre Tablets</b> Code 2789 120 tablets  <b>Dosage:</b> 4 tablets daily, taken with a glass of water.	Fibre in the diet assists elimination, very important to dieters and non-dieters alike. Fibre can also provide a “feeling of fullness” that helps to reduce the desire for large portions of food. In addition to assistance with dieting, a high fibre diet, full of whole grains and fruit and vegetables, has also been associated with a well functioning body. Despite its importance, people on average consume less than half the daily fibre scientists recommend for optimal well-being.	<b>Safe and wholesome</b> alternative to appetite suppressant drugs. Non-habit forming. No harmful side effects.  <b>Fibre from eight sources</b> is a unique blend of whole grains, fruits and vegetables: 4 tablets provide two grams of dietary fibre.  <b>Makes it easier to choose smaller meals.</b> Unique blend of ingredients helps create a sensation of fullness.  <b>Less than 6 kilojoules per serving.</b> Sugar free!  <b>Completely sodium free</b> is an important consideration for dieters who don’t wish to retain excess water which adds unwanted weight.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Flavonoid Complex</b> Code 2790 60 tablets  <b>Dosage:</b> 2 tablets daily.	Research suggests that diets with high levels of flavonoids, one of the natural sources of the brighter colours in many fruits and vegetables, may offer several benefits for optimal well-being; they may also be immuno-supporting. Antioxidant flavonoids work with vitamin C to provide increased protection from oxidative damage for the water-based portion of the cell. Although a few bioflavonoids have become relatively well-known, there are over 4000 unique flavonoids and it appears they may be most effective when several types are consumed together. It seems that only a minority of people eat an adequate amount of the fruits and vegetables in their daily diet that would provide the flavonoids they need.	<b>Broad spectrum, representing all flavonoid classes</b> which include flavones, flavanols, flavanones, anthocyanins and catechins.  <b>Exclusive blend of whole food extracts and concentrates</b> derived from whole cranberries, kale, green tea (without caffeine), beets, berries, red and black grapes, oranges, lemons and grapefruits.  <b>Added benefit of ellagic acid,</b> closely related to flavonoids (found in strawberries and cranberries for example), which has been associated with reduced risk of some aggressive threats to our well-being.  <b>Convenient serving,</b> each tablet provides the full water soluble antioxidant profile of an optimal serving of flavonoid-rich fruits and vegetables.
<b>Formula IV Food Supplement</b> Code 2577 60 capsules Code 2576 120 capsules  <b>Dosage:</b> 2 capsules daily.	Vitamins and minerals, though very important, are not the complete answer to optimal human nutrition. Dietary fats known as lipids and sterols influence nutrition at the cellular level. Imbalances among these may interfere with efficient functioning of the cells and contribute to feelings of undue fatigue. Other food factors such as enzymes are also important contributors to improved well-being.	<b>Exclusive Tre-en-en Grain Concentrates</b> form the basis for this complete, whole food supplement.  <b>More than a multi-vitamin</b> it is a unique multi-factor whole food supplement with vitamins, minerals, lipids and sterols and selected enzyme.  <b>Supported by research</b> which shows that adequate amounts of lipids and sterols promote better nutrient utilisation.  <b>No artificial colouring and preservative free.</b>
<b>Formula IV Plus</b> Code 2556 30 sachets Code 2557 60 sachets  <b>Dosage:</b> 1 sachet daily.	Scientists continue to confirm, that there’s more to nutrition than just the classic vitamins and minerals. As important as these nutrients are to optimal health, we are also learning that phytonutrients, enzymes, trace minerals and others play equally important roles. Dietary fats known as lipids and sterols influence nutrition at the cellular level. Imbalances among these may interfere with efficient functioning of the cells and contribute to undue fatigue. Although good nutrition in general is a universal human need, not everyone needs the exact same mix of nutrients. Iron, for example, is an essential mineral, that many people adequately obtain from their normal diet.	<b>Exclusive Tre-en-en Grain Concentrates</b> with 675 mg of wheat, rice and soya extracts forming the basis for this whole food supplement.  <b>More than a multi-vitamin,</b> this unique multi-factor supplement with vitamins, minerals, selected enzyme and lipids/sterols all working together to bridge dietary gaps.  <b>Replaces important trace minerals,</b> stripped away during food processing.  <b>IRON FREE</b> <b>No artificial colouring and preservative free.</b>  <b>Convenient individual sachets</b> you can easily take with you anywhere.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<p><b>Full Motion</b> Code 2505 90 tablets</p> <p><b>Dosage:</b> Take 1 tablet three times a day with a glass of water. For best results, take each tablet just before mealtime.</p>	<p>Cartilage is the slippery tissue that covers the ends of bones in joints, and healthy cartilage allows the bones to smoothly glide over one another without joint pain or discomfort. Osteoarthritis is a breakdown of the joint's cartilage, and commonly causes joint pain in people of all ages. Glucosamine is the primary building block of joint cartilage. It is naturally produced in the body from glucose and the amino acid glutamine. Scientists believe that as the body ages, its capacity for producing glucosamine, and ultimately cartilage, declines. The loss of glucosamine production combined with an increase in demand due to physical activity and age, can result in pain, stiffness, and loss of mobility. Supplementing the diet with glucosamine, specific minerals, and herbs can provide what the body needs to maintain and even improve joint health.</p>	<p><b>Pharmaceutically pure</b>, it contains biologically functional glucosamine from Glucosamine Hydrochloride and is easy to digest and sulphite-free - minimising digestive discomfort and allergic reactions.</p> <p><b>Herbal Comfort Complex</b> is an exclusive blend of Bromelain, White Willow, and Boswellia, ingredients strongly associated with the body's natural mechanisms for minimising joint pain and inflammation.</p> <p><b>Regenerative Mineral Complex</b> is an exclusive blend of synergistically critical Zinc, Boron, and Silica, key minerals for joint health.</p> <p><b>3D Advantage</b>, which provides optimal bioavailability through maximum Disintegration, Dissolution, and Dispersion.</p> <p><b>Formulated under the direction of NeoLife's Scientific Advisory Board</b> using leading-edge science.</p>
<p><b>Garlic Allium Complex</b> Code 2857 60 tablets</p> <p><b>Dosage:</b> 2 tablets daily.</p>	<p>Allium vegetables, such as garlic, onions, leeks, scallions and chives, have been used throughout history as folk remedies. Population and clinical studies show that regular consumption of a variety of Allium vegetables has beneficial effects especially as we grow older. Research suggests the amount of allicin contained in one clove of fresh garlic offers extensive benefits and support to our bodies. Scientists have found that many of the Allium compounds, in addition to allicin, help promote optimal well-being. Despite the benefits, people are still sometimes discouraged from ingesting Allium vegetables for fear of repeating and/or unpleasant breath odour. This has contributed to the popularity of garlic supplements even though some have the same problem. However, for a garlic supplement to be effective, it must contain both alliin and allinase, in order for the body to obtain allicin in the intestinal tract to facilitate garlic's many benefits to the body.</p>	<p><b>Broad spectrum, whole-food supplementation</b> features extracts and concentrates from the Allium vegetables garlic, onion, chive and leek. No other product boasts as complete a selection of Allium vegetables.</p> <p><b>Nutrient family approach</b> which includes not only allicin, but also other bioactive compounds that exist naturally in Allium vegetables to maximise overall well-being.</p> <p><b>Guaranteed high allicin yield</b> as each dose delivers 4,200 µg of allicin, the amount found in a fresh clove of garlic. Contains both alliin and allinase, the components needed to produce allicin.</p> <p><b>Targeted Delivery Technology</b> uses enteric coating to maximise stability and absorption and assure the formation of active allicin in the intestines.</p> <p><b>No repeating or garlic breath!</b></p>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<p><b>G1 Laundry Compound</b> Code 2140 2 kg Code 2149 25 kg</p> <p><b>Directions for use:</b> Use 1 to 3 scoops (scoop included) depending on the degree of soiling and the size of the wash load.</p>	<p>There's sure to be an enormous variety of fabric styles, colour, weight and blends of natural and synthetic fibres in most people's wardrobes. These all need to be cleaned without resorting to a cupboard full of specialised laundry products. In addition to neutral environmental consequences of using a laundry compound, it must also leave clothes clean, bright and free of residue, as well as washing machines free of damaging corrosion and build up.</p>	<p><b>Safe for use</b> on all washable fabrics.</p> <p><b>Accelerated cleaning power</b> from special enzymes that attack and remove protein and fatty stains.</p> <p><b>Colour safe</b> oxygen bleach removes severe spots.</p> <p><b>Helps prevent corrosion</b> and protects valuable washing machine parts and plumbing. G1 Laundry Compound will not cause build up and scum on tubs or in pumps.</p> <p><b>Earth-friendly</b> as it returns to its original components after use.</p>
<p><b>GR<sup>2</sup> Control Appetite Reducer</b> Code 2908 84 tablets</p> <p><b>Dosage:</b> Take 2 tablets with water before each meal (or NeoLife Shake).</p>	<p>Receptors in the digestive tract actually “learn” to feel full. For many people, these receptors have learnt to feel full on too many kilojoules and the desire to overeat overrides all other nerve signals. These receptors can be “reprogrammed” to feel full on smaller portions of food. Unfortunately, while these receptors can be triggered naturally, without stimulating the central nervous system, many commercial diet plans’ appetite suppressants are formulated with potentially harmful ingredients. Fibre plays an important role in carbohydrate metabolism by delaying gastric emptying and slowing carbohydrate release into the bloodstream. This helps minimise insulin response, which if left ignored can spike and plummet at unhealthy intervals. This “glycaemic roller coaster” can lead not only to weight gain, but to life-threatening diseases, like diabetes.</p>	<p><b>Contains Glucomannan (Konjac) which expands up to 50 times its weight in water</b>, along with five other food based sources of fibre.</p> <p><b>Exclusive formula works with the body to create the feeling of fullness on fewer kilojoules.</b></p> <p><b>Helps control glycaemic response</b> by slowing carbohydrate release into the bloodstream, thereby encouraging the body to burn fat for fuel, instead of placing it in storage.</p> <p><b>Convenient.</b> Taken before mealtime, two tablets provide hunger-curbing fullness and satisfaction on less food.</p> <p><b>No added sodium, sugar, or other sweeteners.</b></p> <p><b>Zero kilojoules per serving.</b></p> <p><b>No artificial colours, flavours, or preservatives.</b></p>
<p><b>GR<sup>2</sup> Control Thermogenic Enhancer</b> Code 2909 42 tablets</p> <p><b>Dosage:</b> Take 1 tablet before each meal (or NeoLife Shake).</p>	<p>Successful weight-loss involves the synergy of multiple body processes, including metabolism and energy utilisation. Additionally, the act of losing weight can tax the body, resulting in a reduced feeling of wellness, such as sluggishness, tiredness, and irritability. Water retention and hunger can also be hindrances when dieting. Components in certain foods can support the body's natural energy production process. Specific combinations of herbs also enhance energy levels and increase the body's metabolic rate. Unfortunately, many commercial formulas contain potentially harmful central nervous system stimulants to accomplish this.</p>	<p><b>Developed from real world clinical experience with herbal formulas.</b></p> <p><b>Comprehensive formula</b> provides broad, synergistic effects of the herbal constituents, which optimises their ability to support successful weight loss.</p> <p><b>Herbs carefully selected from many global traditions</b>, bringing the best herbal knowledge from around the world.</p> <p><b>Contains Brindell Berry</b>, which has been shown to help stabilise appetite and inhibit lipid and cholesterol synthesis.</p> <p><b>Contains Green Tea and Cayenne</b>, which have been shown to increase energy utilisation.</p> <p><b>Contains Dandelion Leaf</b>, which has been shown to help reduce water retention.</p> <p><b>Guaranteed purity, potency, and consistency.</b></p> <p><b>100% pure herbal ingredients.</b></p> <p><b>Herbal formula</b> contains no animal or chemical products.</p> <p><b>No central nervous system stimulants. No added caffeine, no fat blockers, no ephedra, no guarana, no ma huang, no label warnings, no dangerous ingredients.</b></p>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Hair Care</b> <i>See Nutriance Mild Revitalizing Shampoo, Nutriance Rich Revitalizing Shampoo and Nutriance Enriching Conditioner</i>		
<b>Herbal Alternatives</b> <i>See Feminine Herbal Complex, Herbal Digestive Complex, Herbal Respiratory Formula, Herbal Rest &amp; Relax, Masculine Herbal Complex and Mind Enhancement Complex</i>		
<b>Herbal Digestive Complex</b> Code 2899 60 tablets  <b>Dosage:</b> 1 tablet morning and evening.	Digestion, the second stage of the Six Stages of Nutrition, is the process by which complex foods are broken down into simpler substances which the body uses for energy and tissue building. For centuries, master herbalists have known that a calm, relaxed digestive system is essential to optimal wellness. It is also known that certain herbs work to calm and relax the digestive tract and support and promote the function of the digestive system.	<b>Comprehensive formula.</b> Our unique “complete family” approach to the formula provides broad, synergistic effects of the herbal constituents, which optimise their ability to support digestive wellness.  <b>Herbs are selected from many global traditions,</b> bringing you the best herbal knowledge from around the world.  <b>Contains German Chamomile,</b> which has been shown to help improve appetite and digestion and reduce inflammation. It also helps to relieve flatulence and relax gastrointestinal spasm.  <b>Contains Dandelion root,</b> which has been shown to help support normal digestive function, lazy bowels and relieve constipation.  <b>Contains Aloe Vera extract,</b> which has been shown to help soothe gastric mucous membranes.  <b>Guaranteed purity, potency and consistency.</b>  <b>100% pure herbal ingredients.</b>  Herbal formula <b>contains no chemical or animal products.</b>
<b>Herbal Respiratory Formula</b> Code 2900 60 tablets  <b>Dosage:</b> 1 tablet morning and evening.	Herbalists have long known that a healthy and unrestricted respiratory system, free from allergic reactions, is critical to optimal wellness. It is also known that certain herbs work to support the respiratory system helping to prevent periods of imbalance.	<b>Comprehensive formula.</b> Our unique “complete family” approach to the formula provides broad, synergistic effects of the herbal constituents, which optimise their ability to support the function of the respiratory system.  <b>Herbs are selected from many global traditions,</b> bringing you the best herbal knowledge from around the world.  <b>Contains Elecampane root,</b> which has been shown to assist in promoting and supporting the function of the respiratory system, help relieve coughing and protect against recurrent respiratory infections.  <b>Contains Nettle leaf and Elder flower,</b> which have been shown to help relieve minor symptoms of allergies and hay fever and soothe respiratory mucosa.  <b>Guaranteed purity, potency and consistency.</b>  <b>100% pure herbal ingredients.</b>  Herbal formula <b>contains no chemical or animal products.</b>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Herbal Rest &amp; Relax</b> Code 2901 60 tablets  <b>Dosage:</b> 1 tablet morning and evening.	To help relax the body, master herbalists have long believed that you must first “calm the mind”. It is also known that certain herbs work to balance and quiet the mind - essential before true relaxation or a good night’s sleep can be experienced.	<b>Comprehensive formula.</b> Our unique “complete family” approach to the formula provides broad, synergistic effects of the herbal constituents, which optimise their ability to support a relaxed body and quiet mind essential for normal sleep function.  <b>Herbs are selected from many global traditions,</b> bringing you the best herbal knowledge from around the world.  <b>Contains St. John’s Wort,</b> which has been shown to help support calmness, relieve low mood and support positive mental attitude.  <b>Contains Lemon Balm and Passion Flower</b> which have been shown to help calm and relax the body, assist in overcoming sleeplessness and mild depression.  <b>Guaranteed purity, potency and consistency.</b>  <b>100% pure herbal ingredients.</b>  Herbal formula <b>contains no chemical or animal products.</b>
<b>Household Cleaners</b> <i>See Carpet Glo, LC30, LDC and Super 10</i>		
<b>Iron</b> <i>See Chelated Iron</i>		
<b>Laundry Care</b> <i>See G1 Laundry, Oxygen Bleach and Soft</i>		
<b>LC30</b> Code 2422 5 litre Code 2423 25 litre  <b>Directions for use:</b> Dilutions range from 1:400 to 1:20.	Cleaning the surroundings in which we live or work is a tough challenge. A working environment, be it commercial or industrial is even more varied and larger than a domestic environment, so a cleaning agent needs to be multi-purpose, economical, conveniently packaged and safe to use.	<b>Economical, very concentrated product</b> which is effective at low concentrations.  <b>Suitable for use</b> at home, in commercial or industrial facilities as well as in food preparation areas.  <b>Safe to use,</b> having a neutral pH and contains no hazardous substances, making it safe for general use.  <b>Convenient packaging,</b> being available as a concentrate in 5 litres and 25 litres.  <b>Earth-friendly</b> as it returns to its original components after use.
<b>LDC</b> Code 2021 1 litre Code 2022 5 litre Code 2023 25 litre  <b>Directions for use:</b> Dilute 1 part LDC with 3 parts water (cold or salt water).	To maintain the beauty and value of our possessions we keep them clean. A variety of speciality cleaners have been designed for specific cleaning jobs because the things we value are made of many different materials. Purchasing all these speciality cleaners can eat away at our budgets. Most consumers agree, a good basic household cleaner should be powerful yet gentle, versatile, water soluble (leaving no soapy residue) and earth-friendly. Despite the need for environmentally responsible products, many are still not environment-friendly.	<b>Economical, concentrated product</b> as a little goes a long way and can be used for a variety of cleaning jobs, from washing fine lingerie to cleaning greasy stove tops.  <b>Voluminous foam</b> effectively cuts grease: ideal for dishes, glassware, pots, pans, fine china and ceramics.  <b>Very gentle on hands</b> with a neutral pH that doesn’t irritate skin. Safe for the whole family.  <b>Excellent for fine lingerie, sweaters and other delicate hand washables</b> leaving them clean, soft and fresh.  <b>Completely free rinsing</b> leaving no soapy film.  <b>Earth-friendly</b> as it returns to its original components after use.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Lemon Glo</b> Code 2071 500 ml  <b>Directions for use:</b> Apply a small amount directly onto the surface or onto a dampened cloth. Buff with a dry, soft cloth.	For most people there is no place quite like home. A place that houses those things most cherished. Maybe a favourite painting, rug or classic piece of furniture. Each needs to be cared for in the appropriate way. Furniture of all ages requires mild cleaning to remove soils and a protective film that adds shine and lustre, ideally being water and dust resistant.	<b>Modern</b> water-based formulation. <b>Three phase furniture care</b> , with cleanser to remove soils, natural oils to promote shine and lustre and a modern acrylic polish to preserve and protect the finish. <b>Long lasting</b> dust and water resistant properties. <b>Concentrated, economical product</b> using minimum product and effort for maximum results. <b>Versatile</b> as it cleans and protects furniture, wood, painted surfaces, plastic material and metal surfaces.
<b>Lipotropic Adjunct</b> Code 2509 90 tablets  <b>Dosage:</b> 2 to 4 tablets daily.	Research indicates that moderate homocysteine levels are important for the long-term health of your blood vessels, arteries, heart and brain. Lipotropic Adjunct was developed specifically to address the regulation of homocysteine levels and to assist lipid metabolism.	<b>Concentrated lipotropic factors</b> (choline and inositol) assist the mobilisation and utilisation of dietary fats. <b>Contains folic acid</b> , vitamin B6 and vitamin B12 - nutrients known to lower blood levels of homocysteine, a metabolic by-product that can accumulate to dangerous levels and damage blood vessels. <b>Betaine hydrochloride</b> helps create an environment conducive to vitamin B12 absorption. Betaine is itself involved in homocysteine metabolism. <b>Citrus bioflavonoids</b> , including hesperidin, support the health of the circulatory system.
<b>Liqui-Vite</b> Code 2895 240 ml  <b>Dosage:</b> Children (under 4 years): 1 teaspoon  Adults and Children (over 4 years): 2 teaspoons	Young children and others who are unable to chew or take capsules need an alternate form of nutritional supplementation. Not only are important vitamins needed for growth and development, but lipids and sterols are especially important for the production of healthy new cells. Lipids and sterols provide critical support for healthy cellular uptake of nutrients, and cellular export of waste and metabolites. Because lipids and sterols help enhance cellular nutrition, they can play an important role in healthy development of organ systems. Like adults, toddlers and children are exposed to oxidative stress. A diet rich in carotenoids, flavonoids, and vitamins C and E help keep blood and cellular antioxidant levels high and support healthy immune activity. Additionally, the amount of energy expended by toddlers and children requires efficient utilisation of fat. L-carnitine, an amino acid, is directly involved in fat utilisation and cellular energy metabolism.	<b>Convenient</b> , easy-to-take formula, suitable for toddlers, children and adults, who want or need a fluid supplement. <b>NeoLife's exclusive Tre-en-en® Grain Concentrates</b> , provide lipids and sterols to support complete nutrition at the cellular level. <b>Broad-spectrum antioxidant protection and immune support</b> from whole-food carotenoids and flavonoids, plus vitamins C and E. <b>L-carnitine</b> to support fat utilisation and energy metabolism. <b>12 important vitamins</b> in just one serving can assist in meeting daily micronutrient needs for vitamins A, B1, B2, B6, B12, C, D, and E, folic acid, niacin, biotin, and pantothenic acid for children under four years of age. <b>Delicious citrus flavour</b> appeals to people of all ages.

<b>Masculine Herbal Complex</b> Code 2897 60 tablets  <b>Dosage:</b> 1 tablet morning and evening.	Though you may be healthy in all other respects, imbalances or disruptions of natural male functions can occur and undermine feelings of wellness and male vitality. For centuries, master herbalists have known that men have unique needs, and that certain herbs work to balance and support normal masculine function and improve wellness and vitality.	<b>Comprehensive formula.</b> Our unique “complete family” approach to the formula provides broad, synergistic effects of the herbal constituents, which optimise their ability to promote vital male balance. <b>Herbs are selected from many global traditions</b> , bringing you the best herbal knowledge from around the world. <b>Contains St. John's Wort</b> and Skullcap which help support calmness, relieve low mood and support positive mental attitude. <b>Contains Damiana</b> for boosting vitality. <b>Guaranteed purity, potency and consistency.</b> <b>100% pure herbal ingredients.</b>  Herbal formula <b>contains no chemical or animal products.</b>
<b>Mind Enhancement Complex</b> Code 2906 60 tablets  <b>Dosage:</b> 1 tablet morning and evening.	Our mental functioning tends to weaken when we are faced with various forms of stress and can include anything from simple fatigue to degeneration linked to ageing. Master herbalists have long known that our capacity for focused concentration, clear thinking and accurate recall can be supported and even enhanced with an appropriate mix of herbs. These herbs help to optimise critical blood circulation to the brain and protect it from free radical damage associated with mental decline.	<b>Comprehensive formula.</b> <b>Herbs are selected from many global traditions.</b> <b>Contains Ginkgo biloba (leaf)</b> which has been shown to promote blood vessel flexibility and improve blood flow. <b>Contains Gotu kola</b> which has been associated with mental clarity and enhanced memory function. <b>Contains Red sage</b> which helps to increase alertness and ability to concentrate and provides strong antioxidant properties which help minimise and protect against age related mental decline. <b>Guaranteed purity, potency and consistency.</b> <b>100% pure herbal ingredients.</b>  Herbal formula <b>contains no chemical or animal products.</b>
<b>Multi</b> Code 2558 30 tablets  <b>Dosage:</b> 1 tablet daily.	Obtaining the diversity and density of nutrients needed for the human body to function properly has become a recognised challenge, given our modern lifestyles and in many cases the quality of the food available. The inevitable dietary gaps that result and their definite health consequences, support the fact that virtually everyone can benefit from nutritional supplementation. It is therefore important to ensure that everyone has the opportunity to reduce the likelihood of dietary gaps. Daily supplementation of key vitamins, important minerals and trace minerals can be particularly beneficial. However, not everyone may require the same mix of nutrients. Iron, for example, is an essential mineral that many people adequately obtain from their normal diet.	<b>Entry level product</b> helping to prevent the start of dietary gaps. <b>Comprehensive formula</b> containing key vitamins, minerals and trace minerals. <b>IRON FREE.</b> <b>No artificial colouring and preservative free.</b>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Multi-Fibre Blend</b> Code 2504 284 g  <b>Dosage:</b> Mix 10 g with 250 ml of milk, juice or your favourite NeoLife Protein drink.	High-fibre diets have been linked to reduced risk of disease, improved health and weight maintenance. Unfortunately most of us eat only 10-15 grams of fibre daily - about half the amount recommended by the National Cancer Institute. Multi-Fibre blend provides a convenient way to boost dietary intake of fibre from 16 different whole food sources.	<b>Fibre from 16 whole-food sources.</b> Contains oat fibre, soya fibre, citrus fibre, pea fibre, oat bran, beet fibre, soya bran, lemon pectin, fig powder, apple powder, banana powder, almond meal, prune powder, orange fibre, apple fibre, acerola fibre, peanut flour, carrot fibre, and sun choke (Jerusalem artichoke) flour. <b>All 5 types of fibre</b> that includes insoluble fibre (cellulose, hemicellulose, and lignin) and soluble fibre (gums and pectin), in the natural balance of whole foods, to provide a broad range of benefits. <b>Concentrated</b> , with each serving containing 7 grams of dietary fibre - one quarter of the daily requirement. What’s more, Multi-Fibre Blend is low in fat, sodium and kilojoules, and contains no cholesterol. <b>Convenient</b> , as it mixes easily with your favourite beverages and foods. It can be used to boost the fibre content of milk, juice or yoghurt, hot and cold cereals, breads and other baked goods, meatloaf, pasta, casseroles, sauces, etc. <b>100% vegetarian</b> , containing no animal products. <b>Only 42 kilojoules per serving.</b>
<b>Multi-Mineral Plus Alfalfa</b> Code 2775 60 tablets  <b>Dosage:</b> 1 tablet daily.	Diet is the only source of minerals for the body. Although only relatively small amounts of minerals are required they are absolutely essential to normal mental and physical functioning. Many mineral functions are interrelated with those of vitamins although mineral deficiencies appear to be more common than vitamin deficiencies. A blend of macro, micro and trace minerals with Alfalfa, a particularly nutrient rich plant and one of the most complete in our food chain, provides broad spectrum mineral content in forms drawn directly from nature.	<b>Broad spectrum formulation</b> containing macro, micro and trace minerals. <b>Custom Trace Mineral Blend</b> containing Atlantic kelp, watercress, parsley, chlorophyll and Irish moss for broad spectrum mineral availability. <b>Alfalfa is grown without pesticides and is field ripened.</b> <b>Alfalfa is air-dried</b> as low temperature natural drying protects nutrient value.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>NeoLifeBar</b> 15 x 45 g individually wrapped bars Code 2919, Dark Chocolate Peanut Butter Code 2918, Fruit & Nuts  <b>Dosage:</b> In between meal snack.	Traditional snack foods such as potato chips, cheese curls, and chocolate cookies have lined the shelves of our neighbourhood supermarkets and grocery stores for decades. Although they are convenient, many snack products sold today are far from wholesome; they contain empty kilojoules and unhealthy ingredients such as high fructose corn syrup and trans fats. Such foods can be consumed as a small part of an overall nutritious and balanced diet, but may contribute to the obesity epidemic when not consumed in moderation. That’s why it’s important to have a healthy choice in snacks especially when striving to achieve or maintain a healthy weight.	NeoLifeBar is a delicious snack that satisfies your hunger between meals. Great for the whole family! <b>Based on Glycaemic Response Control Technology</b> to help minimise fat storage and promote fat burning. <b>Rich source of protein and fibre</b> from the NeoLife proprietary protein and fibre blend to help you feel fuller for longer. <b>Whole grain goodness</b> from soya crisps blended with rolled oats. <b>Provides omega-3s from flaxseed</b> , with ALA which is an essential fatty acid that may play a role in managing normal inflammatory processes our bodies experience on a day-to-day basis. Also a good source of dietary fibre and beneficial lignans. <b>Antioxidants abound</b> with mixed berries or dark chocolate. <b>Cocoa Flavonols</b> in dark chocolate may support circulatory health for heart, mind and body. <b>Chunks of nuts and seeds</b> provide a boost of protein, fibre, and delicious flavour. <b>17 essential vitamins and minerals.</b> <b>Makes the perfect snack in the AM and PM</b> as part of the NeoLife Weight Management Programme. <b>Gluten free</b> <b>Dairy free</b>
<b>NeoLifeShake</b> Containers, 752 g/16 servings Code 2912, Creamy Vanilla Code 2913, Berries n' Cream Code 2914, Rich Chocolate  <b>Dosage:</b> Mix 2 scoops with water (Scoop provided). Shake thoroughly in NeoLife Blender Bottle.	Much too often, we do not get the nutrition we need on a daily basis. Lack of nutrition, coupled with lack of physical activity may cause us to feel tired, sluggish and in many cases, cause us to gain weight, which can lead to the development of chronic disease. Studies show that a high protein/high fibre breakfast can promote sustained energy to get through the day. When following a weight management programme, a balanced ratio of protein to fibre to carbohydrates in a meal replacement shake can support glycaemic response control to help you meet your goals.	<b>Complete nutrition.</b> An ideal meal replacement shake for weight management. When not on a weight loss regimen, NeoLifeShake may be consumed as a breakfast shake for delicious and healthy nutrition every day. <b>Based on our clinically proven GR<sup>2</sup> Control (Glycaemic Response) Technology</b> to help minimise fat storage and increase the amount of fat your body burns. <b>Biologically complete</b> with all 22 amino acids involved in human nutrition, including Branched Chain Amino Acids (BCAAs) to help retain lean muscle mass. Supplies <b>25 Essential Vitamins &amp; Minerals.</b> <b>Formulated with “glycaemic edge” carbohydrates</b> that provide lasting energy and encourage your body to stay in a fat-burning mode. <b>Delicious and satisfying.</b> Three delicious flavours – Creamy Vanilla, Berries n' Cream & Rich Chocolate. <b>No artificial sweeteners, colours or preservatives added.</b> <b>Conveniently and easily</b> mixes with water. Can also be mixed with milk.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<p><b>NeoLifeTea</b> Code 2915 15 sticks (30 servings)</p> <p><b>Directions for use:</b> Mix ½ stick with 250ml of hot or cold water.</p>	<p>NeoLifeTea offers a quick and safe pick-me-up. <p><b>Nutriance Aloe Vera Gel</b> Code 2316 100 ml</p> <p><b>Directions for use:</b> Apply to skin as needed.</p>	<p>People have recognised the beneficial effects of Aloe Vera throughout virtually all of recorded history and it remains a favourite choice for use in promoting healthy skin. Aloe Vera works with the skin's natural moisture barrier to help soothe and soften skin that has undergone rough treatment. Also, Aloe Vera helps counter the effects of overexposure to the outdoor elements and promotes youthful smoothness and elasticity. Certain botanicals work synergistically with Aloe Vera to offer extra effective soothing relief, to support healthy skin and cellular renewal.</p>	<p><b>Exceptionally effective soothing relief from over exposure to sun, wind and cold</b> is provided by the finest grade of Aloe Vera Gel, enhanced by the addition of the botanicals, Calendula, Chamomile, Cornflower and St. John's Wort.</p> <p><b>Clinically proven to calm the skin's surface and alleviate minor skin discomforts.</b> Helps revive skin suffering from overexposure and related effects to glowing, beautiful health.</p> <p><b>Includes Allantoin and Calendula to support normal cellular renewal.</b></p> <p><b>Clinically proven to add extra moisture and support the skin's moisture barrier</b> with Aloe Vera, Linden Extract and Pro-Vitamin B5 (Panthenol).</p> <p><b>Helps to soften skin and promote elasticity</b> with a unique botanical blend.</p> <p><b>Helps maintain a normal skin surface pH with a water soluble formula.</b></p> <p><b>Clinically tested in Europe's most prestigious dermatological research facility.</b></p>
<p><b>Nutriance Balancing Toner 2</b> Code 2321 200 ml (combination-to-oily skin)</p> <p><b>Directions for use:</b> Apply to the face and neck after cleansing or shaving.</p>	<p>Toners complete the cleansing stage by removing any remaining residues and impurities, and are especially helpful near the hairline. Toning also soothes the skin, and leaves it feeling firm and refreshed. Plus, toners prepare the skin surface for the next important step: moisturising. Certain botanicals help to rebalance the oil-to-moisture ratio and promote skin's elasticity. Other botanicals can help protect against oxidative assault. Toners can also help shrink the appearance of pores and blemishes, problematic for those with combination-to-oily skin. Alcohol-based toners can dry the skin and cause stinging and discomfort.</p>	<p><b>Calms lipid production by up to 37%,</b> and promotes a healthy lipid-to-moisture balance with a unique combination of botanical extracts: Witch Hazel, Tormentil, White Oak Bark and Sage.</p> <p><b>Helps shrink the appearance of pores and blemishes</b> with natural botanical action.</p> <p><b>Alcohol-free formula</b> prepares the skin surface for moisturising and protection. No sting or discomfort!</p> <p><b>Delivers Green Tea and Echinacea Extracts</b> for antioxidant and immune support.</p> <p><b>Third step of the Nutriance Synergy Cycle for combination-to-oily skin.</b> Leaves skin refreshed and rebalanced.</p> <p><b>Helps maintain a normal skin surface pH.</b></p> <p><b>Clinically proven performance,</b> verified by Europe's most prestigious dermatological research facility.</p>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<p><b>Nutriance Enriching Conditioner</b> Code 2312 250 ml</p> <p><b>Directions for use:</b> Apply after shampooing. Leave on for up to one minute. Rinse well.</p>	<p>Conditioning is an important step in maintaining healthy, shiny, manageable hair. Stresses from the environment, heat styling, chemical treatment and even everyday combing and brushing can break down the keratin structure that makes up hair. This can lead to split ends, fading and dull, dry, lifeless hair.</p> <p>Conditioning also prevents tangles and knotting, so wet hair combs through easily without pulling or breaking. Certain botanicals can help maintain hair's natural protective lipid balance to give hair added body and lustre. Some conditioners can upset the natural pH balance of hair and scalp.</p>	<p><b>Unique blend of conditioners that bond with hair shaft</b> to restore dry and damaged hair back to its youthful appearance and feel.</p> <p><b>Helps provide protection</b> from subsequent heat styling, the environment and other stresses.</p> <p><b>Helps maintain hair's natural protective lipid balance</b> and give hair added body and lustre with Sweet Almond Extract and Pro-Vitamin B5 (Panthenol).</p> <p><b>The perfect complement to Nutriance Rich Revitalizing Shampoo &amp; Mild Revitalizing Shampoo.</b></p> <p><b>Gentle, free-rinsing formula</b> leaves hair vibrant and easy to manage; tangle-free.</p> <p><b>Helps maintain a normal hair and scalp pH</b> with a unique water soluble formula.</p> <p><b>Clinically tested in Europe's most prestigious dermatological research facility.</b></p>
<p><b>Nutriance Enriching Moisturizer 1</b> Code 2319 75 ml (normal-to-dry skin)</p> <p><b>Directions for use:</b> Apply to face and neck after cleansing and toning.</p>	<p>Moisture is critical to healthy skin; in fact, skin is about 20% water. When deprived of moisture, skin may begin to look and feel dry. The purpose of including a moisturiser in your daily skin care regimen is to bring more water to the skin's layers and reduce the loss of moisture from the surface. As we age, the skin's natural oil-producing glands tend to slow down, reducing the skin's ability to retain moisture. Cellular renewal also slows down, causing skin closer to the surface to become drier. Excessive dryness may also be caused by exposure to the sun's UVA and UVB rays, wind, cold and harsh skin care products. The longer skin remains "thirsty", the sooner it will begin to show lines and wrinkles. Certain botanicals deliver natural moisturising and protective benefits. For optimal results, it's important to use the right moisturiser for your skin type.</p>	<p><b>Minimises the appearance of fine lines and wrinkles</b> with an exclusive combination of Aloe Vera Gel, skin-conditioning amino acids and moisture-binding saccharides.</p> <p><b>Increases moisture within skin cells by 86%</b> within 30 minutes of application and maintains moisture levels of 67% even four hours after application, as verified in European clinical testing.</p> <p><b>Overall improvement in suppleness</b> 19%; radiance 27%; softness 16%.</p> <p><b>Encourages natural lipid production of normal-to-dry skin,</b> enhancing moisture retention and visible smoothness, with a unique combination of botanical extracts; Orange-Flower, Eyebright, Ivy and Sweet Almond.</p> <p><b>Enhances moisture/lipid balance and promotes elasticity</b> with pure Avocado Oil.</p> <p><b>Delivers Vitamin E, Green Tea and Echinacea Extracts</b> for antioxidant and immune support.</p> <p><b>Helps prevent permanent skin damage</b> with clinically proven sun protection ratings (verified UVA protection and UVB protection of SPF 4).</p> <p><b>Fourth step of the Nutriance Synergy Cycle for normal-to-dry skin.</b> Leaves skin soft and radiant.</p> <p><b>Helps maintain a normal skin surface pH.</b></p> <p><b>Clinically proven performance,</b> verified in Europe's most prestigious dermatological research facility.</p>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Nutriance Foaming Gel Cleanser 2</b> Code 2320 150 ml (combination-to-oily skin)  <b>Directions for use:</b> Mild foam gently loosens surface impurities.	<p>Clean skin is an important part of every skin care regimen. Regular cleansing washes away harmful impurities like environmental pollutants and grime. It also keeps skin looking youthful and fresh by eliminating stale surface oils that are no longer working to moisturise your skin.</p> <p>However, it's important to use cleansers that aren't harsh, drying or upsetting to the pH balance of your skin. Certain botanicals benefit specific skin types to promote a healthy lipid-to-moisture balance. Soaps, occlusive ingredients and fragrances that are too strong can upset skin's delicate balance.</p>	<p><b>Three carefully-selected mild cleansing agents</b> thoroughly cleanse combination-to-oily skin without stripping essential moisture.</p> <p><b>Helps restore an ideal lipid-to-moisture balance</b> and helps shrink the appearance of pores with a unique combination of botanical extracts; Witch Hazel, Tormentil, White Oak Bark and Sage.</p> <p><b>Delivers Green Tea and Echinacea Extracts</b> for antioxidant and immune support.</p> <p><b>First step of the Nutriance Synergy Cycle</b> for combination-to-oily skin. Leaves skin feeling clean and responsive.</p> <p><b>Oil-free, free-rinsing.</b></p> <p><b>Helps maintain a normal skin surface pH.</b></p> <p><b>Clinically proven performance</b>, verified by Europe's most prestigious dermatological research facility.</p>
<b>Nutriance Gentle Cleansing Bar</b> Code 2324 Size 125 g  <b>Directions for use:</b> Soap free cleanser for the face and neck.	<p>Environmental grime and pollutants gradually build up on skin, especially in urban or industrial settings, around smokers, or any place the air is stagnant. Sensitive skin requires an extra-gentle, effective cleanser that cleans skin effectively, yet doesn't strip skin of it's necessary, moisture-retaining lipids. Those with sensitive skin find some soaps harsh or drying. Other poorly formulated soaps can upset the pH balance important for a healthy skin surface.</p>	<p><b>Clinically proven to be non-irritating.</b> The perfect alternative cleanser for those with sensitive skin.</p> <p><b>Mild cleansing formula clears away skin surface debris as it delivers moisture.</b> Contains 32% moisturising ingredients!</p> <p><b>Rich, creamy lather</b> for luxurious yet thorough cleansing of face and body.</p> <p><b>Free-rinsing formula</b> leaves skin feeling soft and satiny smooth.</p> <p><b>Helps maintain a healthy skin surface pH</b> with a unique, water-soluble formula.</p> <p><b>Clinically tested in Europe's most prestigious dermatological research facility.</b></p>
<b>Nutriance Mild Revitalizing Shampoo</b> Code 2311 Size 250 ml  <b>Directions for use:</b> Massage into hair and scalp. Rinse well.	<p>Hair and scalp need regular, gentle cleansing to remove dust, dandruff, perspiration, environmental pollutants, hairspray and other styling products that cause buildup. Hair looks and feels its best when it retains sufficient moisture; with too little moisture, hair becomes more difficult to manage. Many products on the market are only effective on limited types of hair; permed and colour-treated hair typically require especially gentle cleansing and can be difficult to manage. Some shampoos are hard to rinse out, leaving a soapy residue that can cause flakes, and others can upset the natural pH balance of hair and scalp. Certain botanicals can assist in the removal of build up and others can help maintain natural moisture balance.</p>	<p><b>Gentle, thorough cleansing of hair without stripping essential moisture</b>, provided by a synergistic, extra-mild, multi-cleanser system.</p> <p><b>Helps maintain hair's natural protective lipid balance</b> and gives hair added body and lustre with Vitamin B3 (Niacinamide) and Pro-Vitamin B5 (Panthenol).</p> <p><b>Delivers soothing botanicals</b>, including Aloe Vera Gel and Chamomile, that add to the refreshingly rich lather.</p> <p><b>Exceptionally gentle, free-rinsing formula</b> leaves hair vibrant and easy to manage.</p> <p><b>Helps maintain a healthy hair and scalp pH</b> with a water soluble formula.</p> <p><b>Clinically tested in Europe's most prestigious dermatological research facility.</b></p>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Nutriance Moisturizing Night Formula</b> Code 2326 Size 50 g  <b>Directions for use:</b> Use as part of the evening skin care routine.	<p>During the day, environmental factors like sunshine, dry air and cold temperatures dry out skin cells. Environmental damage and age-related moisture loss can make skin look scaly. Also, skin that is no longer youthful experiences moisture loss that contributes to the appearance of fine lines and wrinkles. Plus, skin undergoes abuse at night from moisture-robbing pillows and bed linen. For some people, the moisturiser from a daily skin care regimen is not enough and adding a night time moisturiser can give extra support to skin's moisture balance while sleeping.</p>	<p><b>Supports skin's natural moisture-holding capacity</b> while helping to minimise the visible signs of ageing with a combination of Aloe Vera Gel, Hydrolyzed Elastin, sea vegetation sugar extracts and multiple emollients.</p> <p><b>Promotes youthful lipid levels</b> as skin is deep-conditioned with a time-proven effective mixture of Swiss Collagen Complex and a special blend of moisturising ingredients.</p> <p><b>Supports the structure and firmness</b> with deeply penetrating Hydrolyzed Elastin and water soluble Swiss Collagen Complex.</p> <p><b>Protects the skin's suppleness and youthful structure from oxidative assault</b> with lipid-soluble naturally occurring Vitamins A (Retinol) and E.</p> <p><b>Provides extra pampering and deep moisturising.</b></p> <p><b>Helps maintain a healthy skin surface pH</b> with a water based formula.</p>
<b>Nutriance Nourishing Collagen Cream</b> Code 2325 Size 50 g  <b>Directions for use:</b> Most suitable as part of the evening skin care routine.	<p>Moisture is critical to healthy skin; in fact, skin is about 20% water. When deprived of moisture, skin may begin to look and feel dry. The purpose of including a moisturiser in your daily skin care regimen is to bring more water to the skin's layers and reduce the loss of moisture from the surface. As we age, the skin's natural oil-producing glands tend to slow down, reducing the skin's ability to retain moisture. Cellular renewal also slows down, causing skin closer to the surface to become drier. Excessive dryness may also be caused by exposure to sun, wind, cold and harsh skin care products. The longer skin remains "thirsty," the sooner it will begin to show lines and wrinkles. Some skin types need more moisturising power than a daily moisturiser can deliver.</p>	<p><b>Bathes skin in a moisture-saturated complex</b> of pure Swiss Collagen, Hydroelastin and mucopolysaccharides to replenish water in skin cells and enhance the natural moisture barrier.</p> <p><b>More than 76% greater moisture</b> within skin layers even 30 minutes after application, as verified by European clinical testing.</p> <p><b>Boosts skin's moisture content</b> with an exclusive combination of Aloe Vera Gel, soluble Collagen and Elastin, Squalane and Dimethicone.</p> <p><b>Shown in clinical research</b> to significantly diminish the appearance of fine lines and wrinkles caused by exposure to sun, wind, cold and harsh conditions.</p> <p><b>Delivers water-based botanicals: Aloe Vera Gel and Cucumber Extract</b> provide soothing moisture, while helping to maintain a normal skin surface pH.</p> <p><b>Contains Squalane</b> that combines with the skin's own sebaceous lipids to promote youthful moisture levels.</p> <p><b>Takes a step beyond the Nutriance Synergy Cycle</b> when an extra drink of luxurious moisture is desired for your skin.</p> <p><b>Clinically tested in Europe's most prestigious dermatological research facility.</b></p>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Nutriance Nourishing Hand &amp; Body Lotion</b> Code 2315 250 ml  <b>Directions for use:</b> Apply to the hands and body regularly and liberally.	Skin on hands and body is exposed to a variety of stresses. Sun, wind, environmental pollutants, frequent exposure to dishwashing detergents and other cleaners, and extended contact with clothing can deplete moisture and irritate skin. Summer exposure to chlorine, salt water, and sunburn can rob skin of its natural protective oils and alter skin's normal pH balance. Cold weather can chap, chafe, and dry skin, especially the hands, which are prone to becoming rough and reddened. To be healthy, smooth, and supple year round, skin from head-to-toe needs moisture, nourishment, and protection every day. Certain botanicals can soothe, nourish, and revitalise skin, to restore a healthy glow. Oil-based formulas can leave an unwanted and unsightly oily residue on skin.	<b>Counters the moisture-robbing effects of sun, wind, cold and other environmental challenges</b> by adding moisturisers and supporting the skin's moisture-retention barrier with Aloe Vera Gel, Glycerin and Panthenol. <b>Clinically confirmed 45% moisture increase in skin's layers</b> , even four hours after application for long-lasting moisturising benefits. <b>Soothing Chamomile Extracts: Bisabolol and Matricaria</b> help nourish and revitalise your skin's healthy glow. <b>Readily-absorbed, oil-free formula</b> leaves skin feeling smooth and refreshed. <b>Subtle fragrance virtually disappears upon application.</b> Will not conflict with your favourite cologne or perfume.
<b>Nutriance Purifying Facial Scrub</b> Code 2323 100 ml  <b>Directions for use:</b> Add water and scrub gently 1-2 times per week.	Exfoliation is a crucial step toward younger-acting skin. The surface layer of skin consists of dead cells that are constantly sloughing off (exfoliating) and being replaced with new cells from beneath. Use of makeup, exposure to environmental pollutants, and the normal process of ageing can all interfere with this natural process of renewal, allowing dead skin cells to build up. This may cause skin to look dull and feel rough and dry.  Periodic clearing away of these dead cells and other dulling debris on the skin surface supports the natural process of exfoliation of dry, superficial skin, promoting the growth of healthy new skin cells. Selected botanicals can enhance the exfoliating process, to soften, calm, and soothe as the skin surface is purified.	<b>Gentle exfoliation cleansing</b> with ultra-fine Walnut Shell Powder and cleansing agents derived from Coconut and Witch Hazel. <b>30%+ increase in smoothness and softness</b> after just one application, as verified by clinical testing. <b>Contains selected botanicals</b> (Aloe Vera Gel, Chamomile, Witch Hazel and Bisabolol) to soften, calm and soothe as the skin surface is purified. <b>Enhances circulation</b> , accelerates cellular renewal, and supports nutrient delivery to skin cells. <b>Second step of the Nutriance Synergy Cycle.</b> Leaves skin smooth and clear. <b>Helps maintain a normal skin surface pH.</b> <b>Clinically proven performance</b> , verified by Europe's most prestigious dermatological research facility.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Nutriance Refining Toner 1</b> Code 2318 200 ml (normal-to-dry skin)  <b>Directions for use:</b> Apply to the face and neck after cleansing or shaving.	Toners complete the cleansing stage by removing any remaining residues and impurities, and are especially helpful near the hairline. Toning also soothes the skin and leaves it feeling firm and refreshed. Plus, toners prepare the skin surface for the next important step: moisturising. Certain botanicals help to rebalance the oil-to-moisture ratio and promote skin's elasticity. Other botanicals can help protect against oxidative assault. Alcohol based toners can dry the skin and cause stinging and discomfort.	<b>Cleans away the final traces</b> of normal-to-dry skin surface impurities and residual cleanser, with a mild toning formula that soothes and refreshes. <b>Encourages skin's natural lipid production</b> and rebalances the oil-to-moisture ratio with a unique combination of botanical extracts: Orange Flower, Eyebright, Ivy and Sweet Almond. <b>Alcohol-free formula</b> prepares the skin surface for moisturising and protection. No sting or discomfort! <b>Promotes skin's elasticity</b> with pure Avocado Oil. <b>Delivers Green Tea and Echinacea Extracts</b> for antioxidant and immune support. <b>Third step of the Nutriance Synergy Cycle for normal-to-dry skin.</b> Leaves skin refreshed and rebalanced. <b>Helps maintain a normal skin surface pH.</b> <b>Clinically proven performance</b> , verified by Europe's most prestigious dermatological research facility.
<b>Nutriance Refreshing Bath &amp; Shower Gel</b> Code 2314 250 ml  <b>Directions for use:</b> Apply directly to moistened skin or onto a wet sponge.	Bathing is a necessary daily ritual that not only cleans, but refreshes, too. Today's body cleansers are expected to wash away the dirt, surface oils and perspiration, while leaving the skin soft and supple without a soapy residue that can cause itchy, scaly skin. Harsh environmental conditions, ranging from cold weather to air pollution, wreak havoc on skin and can cause dryness and cracking on its surface. Some cleansers can upset skin's natural pH balance, causing even more harm. Certain botanicals calm, soothe and protect skin's suppleness, while others support the skin's natural moisture barrier.	<b>Extra-mild multi-cleansing formula</b> thoroughly cleans surface debris and lifeless cells as it refreshes skin. <b>Unique combination of botanicals</b> , including Calendula, Aloe Vera, St. John's Wort, and Balm Mint Extracts comfort, soothe and protect skin suppleness. <b>Counters the moisture-robbing effects of exposure to the elements</b> , while supporting the skin's natural moisture barrier with moisture-rich Aloe Vera, Pro-Vitamin B5 (Panthenol) and Glycerin. <b>Oil-free, water soluble formula rinses easily</b> and leaves skin feeling vibrantly clean, smooth and refreshed. <b>Enhances youthful radiance</b> with Aloe Vera and Pro-Vitamin B5 (Panthenol), which are known to help soften skin and promote elasticity. <b>Helps maintain a normal skin surface pH.</b> <b>Clinically tested in Europe's most prestigious dermatological research facility.</b>
<b>Nutriance Refreshing Facial Cleanser 1</b> Code 2317 150 ml (normal-to-dry skin)  <b>Directions for use:</b> Gently loosens make-up and surface impurities. Remove with water or damp cotton wool.	Clean skin is an important part of every skin care regimen. Regular cleansing washes away harmful impurities like environmental pollutants and grime and keeps skin looking youthful and fresh by eliminating stale surface oils that are no longer working to moisturise your skin. However, it's important to use cleansers that aren't harsh, drying, or upsetting to the pH balance of your skin. Certain botanicals benefit specific skin types to promote a healthy lipid-to-moisture balance. Soaps, occlusive ingredients and fragrances that are too strong can upset skin's delicate balance.	<b>Clears away skin surface</b> with its mild, moisture-rich, creamy cleansing formula. <b>Encourages skin's natural lipid production</b> with a unique combination of botanical extracts: Orange Flower, Eyebright, Ivy and Sweet Almond. <b>Promotes skin's elasticity</b> with pure Avocado Oil. <b>Delivers Green Tea and Echinacea Extracts</b> for antioxidant and immune support. <b>First step of the Nutriance Synergy Cycle</b> for normal-to-dry skin. Leaves skin feeling clean and responsive. <b>Contains no soaps or occlusive ingredients.</b> <b>Helps maintain a normal skin surface pH.</b> <b>Clinically proven performance</b> verified by Europe's most prestigious dermatological research facility.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<p><b>Nutriance Renewing Antioxidant Treatment</b> Code 2327 50 g</p> <p><b>Directions for use:</b> Apply daily in conjunction with a selected Nutriance Moisturizer.</p>	<p>Environmental factors, like UV radiation and oxidative assaults, can wreak havoc on skin. Plus with age, skin moisture reduces and metabolism slows. Damage to elastin and collagen, the structural foundation of skin, causes skin to lose its smoothness and suppleness. Fine lines and wrinkles appear. Also, exposure to UV radiation increases risk for skin disorders. The synergy of certain nutrients applied topically can influence the ageing process. Certain botanicals support immune power, and the antioxidant vitamins E, C and A intercept and neutralise free radicals that prematurely age skin. When applied over your daily moisturiser, this break-through skin renewal treatment can make your skin look, feel and act younger, restoring a youthful appearance.</p>	<p><b>Clinically proven to erase fine lines and wrinkles</b> by as much as 28% in just 28 days.</p> <p><b>Enhances skin's natural metabolism</b> with Nutriance's exclusive ACR (Activated Cellular Response) to help skin look and act younger.</p> <p><b>Helps rebuild underlying collagen and elastin structure</b>, verified by European clinical testing.</p> <p><b>Clinically proven to increase cellular antioxidant capacity by up to 90%!</b> Protects against oxidative assault with lipid soluble, naturally occurring Vitamins A (Retinol) and E, and water soluble Vitamin C.</p> <p><b>Delivers Green Tea and Echinacea Extracts</b> for antioxidant and immune support.</p> <p><b>Helps prevent permanent skin damage</b> with clinically proven sun protection ratings (verified UVA protection, and UVB protection of SPF 6).</p> <p><b>Fifth step of the Nutriance Synergy Cycle.</b> Leaves skin youthful and resilient.</p> <p><b>Helps maintain a normal skin surface pH</b> with a water soluble, oil-free formula.</p> <p><b>Clinically proven performance</b>, verified by Europe's most prestigious dermatological research facility.</p>
<p><b>Nutriance Revitalizing Moisturizer 2</b> Code 2322 75 ml (combination-to-oily skin)</p> <p><b>Directions for use:</b> Apply to face and neck after cleansing and toning.</p>	<p>Moisture is critical to healthy skin; in fact, skin is about 20% water. When deprived of moisture, skin may begin to look and feel dry. The purpose of including a moisturiser in your daily skin care regimen is to bring more water to the skin's layers and reduce the loss of moisture from the surface. As we age, the skin's natural oil-producing glands tend to slow down, reducing the skin's ability to retain moisture. Cellular renewal also slows down, causing skin closer to the surface to become drier.</p> <p>Excessive dryness may also be caused by exposure to the sun's UVA and UVB rays, wind, cold and harsh skin care products. The longer skin remains "thirsty," the sooner it will begin to show lines and wrinkles. Certain botanicals deliver natural moisturising and protection benefits. For optimal results, it's important to use the right moisturiser for your skin type.</p>	<p><b>Minimises the appearance of fine lines and wrinkles</b> with an exclusive combination of Aloe Vera Gel, skin-conditioning amino acids and moisture-binding saccharides.</p> <p><b>Increases moisture within cells by 79%</b> within 30 minutes of application and maintains moisture levels of 70% even four hours after application, as verified in European clinical testing.</p> <p><b>Promotes a healthy lipid-to-moisture balance and visible smoothness</b> in combination-to-oily skin with a unique combination of botanical extracts (Witch Hazel, Tormentil, White Oak Bark and Sage) in an oil-free formula.</p> <p><b>Delivers Green Tea and Echinacea Extracts</b> for antioxidant and immune support.</p> <p><b>Helps prevent permanent skin damage</b> with clinically proven sun protection ratings (verified UVA protection and UVB protection of SPF 4).</p> <p><b>Fourth step of the Nutriance Synergy Cycle for combination-to-oily skin.</b> Leaves skin soft and radiant.</p> <p><b>Helps maintain a normal skin surface pH.</b></p> <p><b>Clinically proven performance</b>, verified in Europe's most prestigious dermatological research facility.</p>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<p><b>Nutriance Rich Revitalizing Shampoo</b> Code 2310 250 ml</p> <p><b>Directions for use:</b> Massage into hair and scalp. Rinse well. Suitable for daily use.</p>	<p>Hair and scalp need regular, gentle cleansing to remove dust, perspiration, environmental pollutants, hairspray and other styling products that cause buildup. Hair looks and feels its best when it retains sufficient moisture; with too little moisture, hair becomes more difficult to manage. Many products on the market are only effective on limited types of hair. Some shampoos are hard to rinse out, leaving a soapy residue that can cause flakes, and others can upset the natural pH balance of hair and scalp. Certain botanicals can assist in the removal of buildup, and others can help maintain natural moisture balance.</p>	<p><b>Cleanses hair thoroughly without stripping essential moisture</b>, provided by a synergistic extra-mild multi-cleanser system. Natural Witch Hazel is added to assist removal of greasy buildup.</p> <p><b>Helps maintain natural moisture balance and gives hair added body and lustre</b> with Vitamin B3 (Niacinamide) and Pro-Vitamin B5 (Panthenol).</p> <p><b>Effective and gentle.</b> Refreshes and thoroughly cleanses, yet is gentle enough to use daily.</p> <p><b>Free-rinsing formula</b> leaves hair vibrant and easy to manage.</p> <p><b>Helps maintain normal hair and scalp pH</b> with a water soluble formula.</p> <p><b>Clinically tested in Europe's most prestigious dermatological research facility.</b></p>
<p><b>Nutrishake</b> Containers, 500 g/25 servings Code 2582, Vanilla Code 2583, Strawberry Code 2584, Chocolate</p> <p><b>Dosage:</b> Mix 2 slightly heaped scoops with milk or fruit juice. (Scoop provided).</p>	<p>An energy filled day begins with the right combination of high quality protein, plus carbohydrates. Proteins build and replace body cells. Protein itself is made up of amino acids. Amino acids must all be present and in balance, for protein to function properly in the body. There are 22 amino acids, and nine of them are considered "dietary essentials". Children and other picky eaters need nutrient-dense foods but the tasty foods they may prefer are often loaded with excessive sucrose and/or fat.</p>	<p><b>Complete, high quality protein</b> with all 22 amino acids involved in human nutrition.</p> <p><b>Low fat</b> when mixed with 2% milk.</p> <p><b>Low Allergy</b>, being wheat-free, corn-free, low lactose.</p> <p><b>Three yummy flavours</b>, can be mixed with milk, or fruit juice and/or whole fruits for delicious health shakes.</p>
<p><b>Omega-3 Salmon Oil</b> Code 2670 30 capsules Code 2671 100 capsules</p> <p><b>Dosage:</b> Dosage 1 or more capsules daily.</p>	<p>Research shows that a diet which regularly includes fish rich in omega-3 fatty acids, EPA (eicosapentaenoic acid) and DHA (docosahexaenoic acid) derived from the oils of cold-water fish, have been associated with a variety of excellent and important benefits to the proper functioning and overall well-being of our bodies.</p>	<p><b>Derived from pure salmon oil</b>, one of nature's richest sources of omega-3 fatty acids, by cold press processing.</p> <p><b>Only the finest, top quality, health-screened salmon</b>, chosen from fish selected for human consumption and certified disease-free.</p> <p><b>Laboratory certified potency.</b> Three capsules provide 165 mg EPA and 135 mg DHA.</p> <p><b>Balanced ratios</b> of EPA &amp; DHA as found in nature.</p> <p><b>Extremely low in cholesterol</b> with just 1 mg per capsule.</p> <p><b>Low-kilojoules.</b> Only 21 kilojoules per capsule.</p> <p><b>Soft gelatine capsules</b> are easy to swallow.</p>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<p><b>Omega-3 Salmon Oil Plus</b> Code 2672 90 capsules</p> <p><b>Dosage:</b> 3 capsules daily with meals.</p>	<p>Research shows diets that regularly include fish rich in all 8 members of the omega-3 fatty acids, including EPA (Eicosapentaenoic acid) and DHA (Docosahexanoic acid), provide a variety of health benefits. EPA and DHA have been shown to support healthy cardiovascular function. Omega-3 fatty acids, in particular DHA, are important for visual and neuronal development. Derived from oils from cold-water fish, omega-3s may support healthy blood levels of cholesterol, triglycerides and very low-density lipoproteins; normal levels of each of these have been associated with cardiovascular health. Plus, omega-3 fatty acids may offer other health benefits, such as easing the inflammation associated with the overuse of joints.</p>	<p><b>Completeness.</b> Provides all eight members of the omega-3 family, including EPA, DHA, DPA, ETA and ALA.</p> <p><b>Purity.</b> Derived from pure natural Salmon Oil, one of nature’s richest sources of omega-3 fatty acids.</p> <p><b>Potency.</b> Contains UHPO3, a NeoLife exclusive, derived by a process called “molecular differentiation” that delivers ultra-high potency and purity of all the natural Omega-3 fatty acids, including DHA and EPA.</p> <p><b>Safety.</b> Only the finest, top quality, health-screened omega-3 sources from salmon, tuna, anchovies and sardines. Tested for more than 200 potential contaminants with an allowable detection level of ZERO! No risk of accumulated toxins common to some forms of fish; no hidden vitamins A or D.</p> <p><b>Leading-edge technology.</b> Boosts specific, health-promoting omega-3 fatty acid levels while maintaining the whole food goodness of salmon oil.</p> <p><b>Proven.</b> Clinically proven to support heart and cardiovascular health.</p>
<p><b>Oxygen Bleach</b> Code 2431 1 kg</p> <p><b>Directions for use:</b> Dosage depends on degree of soiling and size of wash load. See box for details.</p>	<p>Bleachable soils encountered in household and institutional laundry consists of a wide variety of substances. So it is important that a bleaching agent is effective at removing stubborn spots while being colour safe and even brightening whites and coloured fabrics. It should be easy to use by simply adding a bleach to the laundry compound or directly to the wash cycle.</p>	<p><b>Colour safe bleaching agent</b> to remove severe spots. Brightens whites and coloured fabrics.</p> <p><b>Dose variations</b> dependent on degree of soiling, won’t damage or adversely affect textile dyes.</p> <p><b>Add directly</b> to laundry compound or into wash cycle.</p> <p><b>Optimal effectiveness</b> at 60°C.</p> <p><b>Earth-friendly</b> by returning to its original components after use.</p>
<p><b>PCC</b> (Personal Care Concentrate) Code 2309 250 ml</p> <p><b>Directions for use:</b> Use full strength or dilute 1:1 with water.</p>	<p>Bathing is a necessary, daily ritual that not only cleans us, but relaxes too. Today’s body cleansers are expected to wash away dirt and perspiration, while leaving the skin soft and supple without a soapy residue that can cause itchy, scaly skin. Harsh environmental conditions, ranging from cold weather to air pollution, damage our skin and can cause dryness and cracking.</p>	<p><b>Formulated with gentle, yet effective cleansers</b> that refresh the skin and leave no greasy residue.</p> <p><b>Lasting foam</b>, making bathing a delight.</p> <p><b>Liquid cleanser</b>, easy to dispense and easy to travel with.</p> <p><b>Excellent for fine lingerie and other delicate hand washables</b>, leaving them clean, soft and fresh smelling.</p>
<p><b>PhytoDefence Daily Phyto-nutrient Protection Pack</b> Code 2503 30 sachets</p> <p><b>Dosage:</b> 1 sachet daily.</p>	<p>Research suggests that diets with high levels of carotenoids, flavonoids and the active constituents from the recommended amount of cruciferous vegetables will help to combat oxidative damage to cells and offer significant benefits to our general well-being. It appears that these nutrients, termed phytonutrients, are most effective when several types are consumed together. Only a minority of people eat adequate amounts of the fruits and vegetables that would provide these carotenoids, flavonoids and cruciferous constituents. It is also apparent that some consumers are not aware of how many of each nutrient to consume on a daily basis.</p>	<p><b>First product of its kind</b> to offer scientifically proven phytonutrient protection.</p> <p><b>Convenient individual sachets</b> deliver optimal daily supply of recommended phytonutrients.</p> <p><b>A balanced mix</b> of the equivalent of 6 optimal servings of whole food phytonutrient fruit and vegetables.</p> <p><b>Each sachet contains:</b> 3 brown, soft-gel capsules providing a broad spectrum of nature's oil soluble carotenoids; 2 purple tablets providing water soluble antioxidant diversity from a broad flavonoid spectrum of fruit and vegetable extracts and concentrates and 1 light green tablet providing the phytonutrient profile of an optimal serving of cruciferous vegetables containing a broad spectrum of bioactive ingredients.</p>

<p><b>Pro Vitality</b> Code 2595 30 sachets</p> <p><b>Dosage:</b> 1 sachet daily.</p>	<p>Health surveys show the incidence of chronic disease to be higher than ever before. We could be contributing to this trend due to our busy lifestyle and the state of our diets, which are often inadequate in nutrient-rich whole foods. This can result in turning the healthy food pyramid upside down - too much processed food, sweets and bad fats that contribute to poor health and not enough whole grains, fruits, vegetables and healthy fats from fish that protect health.</p> <p>Leading global health authorities like the World Health Organization, Centers for Disease Control and Heart Associations agree that nutrition plays a critical role in lowering the risk of chronic disease. Everyone should increase consumption of whole grain foods, fruits &amp; vegetables, foods rich in omega-3 fatty acids and essential vitamins &amp; minerals - and maintain a healthy weight. But even those with good intentions to follow a healthy diet, face challenges. Busy lifestyles, eating on the run and the prevalence of processed foods, all contribute to nutritional gaps.</p>	<p><b>Whole food nutrition</b> clinically proven to strengthen the perfect foundation for lifelong health and vitality.</p> <p><b>Includes three scientifically proven products:</b> Tre-en-en® Grain Concentrates, Carotenoid Complex, and Omega-3 Salmon Oil Plus, providing key nutrients from whole grains, fruits &amp; vegetables and fish.</p> <p><b>Preserves the nutritional legacy</b> of the essential vitamin and mineral complex in Formula IV Plus to nourish your cells, with added iron to support energy.</p> <p><b>Phytoenzymes:</b> which is a plant sourced enzyme to support easy digestion and absorption of supplemented nutrients.</p> <p><b>In convenient individual sachets</b> that you can easily take with you anywhere.</p> <p><b>Provides powerful nutrients that support:</b></p> <ul style="list-style-type: none"><li>• Powerful Antioxidant Protection</li><li>• Heart Health</li><li>• Immune Function</li><li>• Healthy Brain Function</li><li>• Flexible, Healthy Joints</li><li>• Clear Vision</li><li>• Youthful Skin, Hair &amp; Nails</li><li>• Lifelong Cellular Health</li></ul>

<p><b>Soft</b> Code 2043 1 litre</p> <p><b>Directions for use:</b> Add 5 ml of Soft per 5 kg washing load to final rinse cycle.</p>	<p>Today, just getting clothes clean is not enough. People want their clothes to smell and feel soft and fresh. Being free from static and easier to iron are all added advantages.</p>	<p><b>Multi-functional softener</b> - softens and freshens.</p> <p><b>Eliminates static build up</b> on clothes and can even be used on carpets.</p> <p><b>Economical, concentrated product</b>, because a little goes a long way.</p> <p><b>Easy to use</b> - just add to the rinsing cycle of any modern washing machine or to hand washed laundry.</p>

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Stage 6</b> Code 2575 100 tablets  <b>Dosage:</b> 1 to 4 tablets before bed with a glass of water.    Reg. T/11.5/250 (Act 101/1965)	Stage 6 offers your body a way to rid itself of toxins, cleansing the body and keeping the metabolic rate functioning optimally. Herbally based Stage 6 has been developed to assist in gently purging the body. Predictable and gentle confidence.	<b>Blend of plants</b> combine to restore natural elimination.  <b>Safe, mild and effective</b> - works without cramping or “griping”.
<b>Super Gro</b> Code 2740 250 ml Code 2741 5 litre  <b>Directions for use:</b> Add 1 ml Super Gro to 1 litre water.	Healthy, green growing plants tend to create a feeling of warmth, pride and a general sense of well-being. In order for plants to survive, let alone flourish, they need water that penetrates right to the root system. However, water has a natural tendency to form small beads on surfaces which prevents it from spreading evenly. This can result in substantial water loss due to run off and evaporation, with very little soil penetration. Consequently more water is used, further taxing our limited resources.	<b>Surfactant system</b> designed to make water wetter.  <b>Optimises water use</b> by overcoming water repellancy, increasing rate of soil penetration and reducing run-off and evaporation.  <b>Compatible with agricultural aids</b> such as plant foods, liquid fertilisers, pesticides and insecticides.  <b>Highly concentrated and economical product</b> , as a little goes a very long way.
<b>Super 10</b> Code 2012 5 litre Code 2013 25 litre  <b>Super 10 Fragranced</b> Code 2016 1 litre Code 2017 5 litre Code 2019 25 litre  <b>Directions for use:</b> Dilute 1 part Super 10 with 3,10 or 20 parts water.	With so many tough cleaning chores around the house it’s no wonder the cleaning cupboard is jammed full. But instead of a different cleaner for every job, the economy and convenience of a single effective product for most household cleaning needs is a desirable and practical solution. To protect and preserve the environment, more and more people today also prefer cleaners with earth-friendly ingredients.	<b>Versatile and economical</b> since one product is useful in literally every room of the house. Effective on every job from removing stubborn fabric stains to cleaning garage floors.  <b>Quickly penetrates, dissolves and emulsifies</b> for a fraction of what you have been spending on other products.  <b>Safe to use</b> on any surface where it’s safe to use water. Non-ionic surfactants “make water wetter” by contributing to the penetration and emulsification of soils.  <b>Concentrated product:</b> a little goes a long way.  <b>Earth-Friendly</b> , as it returns to its original components after use.
<b>Thermogenic Enhancer</b> <i>See GR<sup>2</sup> Control</i>		

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Tre-en-en®</b> Code 2135 60 capsules Code 2130 120 capsules          <b>Dosage:</b> 1 capsule daily.          (See also Formula IV, Formula IV Plus, Daily Vitality Pack and Pro Vitality)	Cell membranes need lipids and sterols to stay healthy. Unfortunately, modern grain processing strips lipids, sterols and other vital nutrients from the foods that make up our dietary staples. Additionally, important lipids and sterols - “good fats” - may also be missing from modern diets in which fat substitutes and fat-free items are substituted for foods rich in lipids and sterols. Certain lipids may increase the fluidity, or “pliability,” of cell membranes and help keep cells functioning efficiently by enhancing nutrient utilisation, which promotes healthy energy and vitality. Plant sterols have a number of valuable health benefits as well, and may support the function of the circulatory system and cellular health throughout the body. Lipids and sterols may assist in providing critical support for the healthy cellular uptake of nutrients, and cellular export of waste and metabolites.	<b>Complete lipid and sterol profile</b> of wheat, rice & soya.  <b>Diverse phytonutrient extracts</b> from staples used around the globe supply essential nutrients, such as omega-3 and omega-6 fatty acids, for optimum cellular function.  <b>Scientifically proven</b> to promote efficient nutrient utilisation.  <b>Replaces important sterols stripped from processed foods</b> , including beta-sitosterol, gamma-oryzanol, stimasterol and campesterol, plus octacosanol.  <b>Cold-pressed and cold-processed</b> to preserve nutritional value.  <b>Cholesterol-free, yeast-free and gluten-free.</b>
<b>Vita Guard</b> Code 2894 120 tablets          <b>Dosage:</b> 2 tablets daily.	Some of the most crucial factors in the nutritional foundation children are building for a lifetime of optimal well-being, are the protective antioxidant nutrients. They receive some of their greatest threats during childhood yet their defence systems are still immature. Antioxidant phytonutrients such as carotenoids and flavonoids from fruits and vegetables have been shown to be immuno-supporting. Antioxidant protection is doubly important for children as they burn more energy in a day than many adults twice their size. This high energy output for growth, development and general activity produces unwanted free radicals. Despite this need, studies show that children’s diets are often lacking the recommended daily servings of fruits and vegetables and thus are deficient in such antioxidant nutrients as vitamins A, C & E, the carotenoids, flavonoids and zinc.	<b>Complete antioxidant protection</b> , specially designed to meet the needs of children from the time they can comfortably chew a tablet - with the antioxidant nutrients they’re most likely to be missing.  <b>Includes Carotenoid and Flavonoid Blends</b> , exclusive to NeoLife. These broad spectrum antioxidants from whole foods protect both lipid regions and watery portions of cells.  <b>Convenient dose</b> contains phytonutrients equivalent to one serving of fruits and vegetables.  <b>Chewable tablets, with a great tasting flavour</b> derived from fruit essences. Contains no artificial flavours, no artificial colours and no preservatives.  <b>Sweetened</b> with fructose and fruit juice concentrates. Contains no sucrose and no synthetic sweeteners.
<b>Vita Squares</b> Code 2893 180 tablets          <b>Dosage:</b> 3 tablets daily.	A solid nutritional foundation is important for children to build upon for a lifetime of optimal well-being. Yet surveys indicate the diets of children and adolescents are lacking in several essential nutrients, such as iron, vitamins A, E & C, zinc, niacin, vitamin B6 and folic acid. Dietary fats, known as lipids and sterols, which influence nutrition at the cellular level are also important. As children grow their bodies are building new cells, which make up tissue, bones, blood, muscles and nerves. This multiplies their needs for complete nutrition. With such a demand by the body for high level nutrition, even a healthy diet may have nutritional gaps.	<b>Complete vitamin and mineral support</b> , specially designed to meet the needs of children from the time they can comfortably chew a tablet.  <b>Includes Tre-en-en Grain Concentrates</b> , exclusive to NeoLife, providing important lipids and sterols.  <b>Chewable tablets, with a great tasting flavour</b> derived from fruit essences. Contains no artificial flavours, no artificial colours and no preservatives.  <b>Sweetened</b> with fructose and fruit juice concentrates. Contains no sucrose and no synthetic sweeteners.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Vitamin A &amp; D</b> Code 2531 100 capsules  <b>Dosage:</b> 1 capsule daily.	Vitamin A is well known for the maintenance of good vision and healthy skin, hair and nails while Vitamin D helps the body utilise calcium necessary for the normal development and maintenance of strong bones and teeth.	<b>100% premium cod liver oil</b> from fish of the glacial fed Northern Atlantic waters.  <b>No unpleasant taste or odour</b> , soft gelatin capsule protects potency and makes product easy to swallow.
<b>Vitamin B Co. Sustained Release</b> Code 2541 60 tablets  <b>Dosage:</b> 1 tablet daily.  Reg. T1138 (Act 101/1965)	The various B vitamins are important for general well-being and are essential for many body functions. Vitamins of the B complex group are important co-factors in the metabolism of the food we eat, help maintain healthy nerve function, are involved in the manufacture of red blood cells and contribute to healthy skin and hair. B vitamins are water soluble and are not stored, so the body needs a daily supply. Processed food that has been refined, canned or overcooked will have some or most of it's B vitamins destroyed.	<b>Complete Formula</b> contains all members of the essential vitamin B family and in addition supplies all nutritional factors found in vitamin B rich foods.  <b>Biologically bound yeast source</b> for overall completeness.  <b>Balanced natural ratios</b> help to avoid a high intake of one which may induce a deficiency in others.  <b>Formula provides availability</b> of high potency B vitamins.  <b>Sustained release</b> technology ensures a slow monitored release into the system for up to 6 hours.
<b>Vitamin C Sustained Release</b> Code 2551 100 tablets  <b>Dosage:</b> 1 tablet daily.  Reg.T1135 (Act 101/1965)	Vitamin C is an essential nutrient that cannot be stored in the body; it must be consumed every day. Current research verifies the importance of vitamin C as a water soluble antioxidant assisting in keeping cells healthy. It also plays a role in maintaining healthy gums, skin, connective tissue and improved iron absorption.	<b>Potency dosage</b> of 500 mg per tablet.  <b>Sustained Release</b> technology maintains release of nutrients for up to 6 hours.  <b>Includes bioflavonoids</b> to enhance absorption and utilisation of vitamin C.
<b>Vitamin E 200 I.U.</b> Code 2774 60 capsules  <b>Dosage:</b> 1 capsule daily.  Reg.T1139 (Act 101/1965)	Vitamin E and the vitamin E family of nutrients (alpha, beta, delta & gamma tocopherols and tocotrienols) are an important group of antioxidants. While vitamin E supplements are easy to find in the marketplace, many are inferior in that many important nutrients are lost during the manufacturing process. New research keeps reinforcing the importance of having sufficient vitamin E nutrients in the diet.	<b>Rich complex</b> of food based vitamin E.  <b>Contains</b> mixed tocopherols.  <b>Protects</b> unsaturated fatty acids and vitamin A against oxidation in the body.  <b>Functions</b> as a tissue antioxidant thereby keeping cells healthy.
<b>Water Filtration Cartridge</b> Code 2574	A healthy body is approximately 70% water. To maintain a healthy water balance an average adult needs to consume between 2-4 litres of water per day. Our sources for drinking water can contain a variety of undesirable chemicals and other substances which have not been fully removed prior to consumption. Widespread concern has been voiced about the prevalence of Volatile Organic Chemicals (VOC's) and Trihalomethanes (THM's) at the tap. In addition, public utilities add chlorine and other disinfectants to the water, which many people prefer not to consume. Filtration at the tap is considered to be the most cost effective, efficient and reliable method of improving drinking water quality.	<b>A highly compressed block of super-fine activated</b> carbon efficiently removes unwanted contaminants and improves taste. This method of filtration is easy to install, simple to maintain and has a convenient filter to periodically replace.  <b>Certified by NSF International</b> (which sets water filtration standards) to substantially improve taste, odour and turbidity and to significantly reduce chlorine, particulate matter, and numerous VOC's, THM's, cysts and other unwanted substances.  <b>Does not remove minerals and trace elements that are essential to overall well-being.</b>  <b>Does not waste water</b> as 100% of filtered water is available for consumption.  <b>Does not use electricity</b> requiring only water pressure to operate.

PRODUCT	FULFILLS WHAT NEEDS?	THE NEOLIFE DIFFERENCE
<b>Wash 'n Wax</b> Code 2061 500 ml  <b>Directions for use:</b> Pour 5 ml into a bucket and add 6 litres of water at full pressure.	Second to a home, a car is probably the biggest investment a person will ever make. The two worst enemies for the finish on a car, or any painted metal surface, are abrasion and oxidation. Constant use of an abrasive polish can lead to thinning and wearing of the painted surface. The painted surface being porous results in molecules of air entering the surface and causing oxidation (similar to rust). Road film, environmental salt spray, sun and other factors all add to further breakdown on the surface. The process of wear and oxidation are continuous, so steps need to be taken to prevent them from occurring.	<b>Dual surfactant system</b> , specially formulated for maximum non-abrasive cleaning and protection.  <b>Protective silicone film</b> displays excellent water barrier properties by promoting increased run-off due to beading.  <b>Reduced oxidation</b> due to this silicone protection.  <b>Concentrated and economical</b> with just a small dose in cold water displaying excellent foaming properties.  <b>Useful household applications</b> since the same mixture is effective for cleaning surfaces of fixtures and appliances found in kitchens and bathrooms.
<b>Weight Loss Programme</b> <i>See Ami-Tone, GR<sup>2</sup> Control, NeoLifeBar, NeoLifeShake and NeoLifeTea</i>		
<b>Wheat Germ Oil</b> Code 2561 60 capsules  <b>Dosage:</b> 1 capsule daily.  Reg. T1142 (Act 101/1965)	Wheat germ oil is the richest source of essential vitamin E. It functions as a tissue antioxidant helping to maintain healthy cells. Vitamin E also protects unsaturated fatty acids against oxidation in the body.	<b>Pure wheat germ oil</b> with vitamin E.  <b>Cold-pressed extraction method</b> preserves more vitamin E than heat extraction method used by many manufacturers.
<b>Zinc</b> <i>See Chelated Zinc</i>
